SUMMARY

ASU GIT (design + dev). RealCopy: Glide prototype !' Expo + APIs (TestFlight). DealerDeck: voice logging + inventory context from BMW floor work; piloting with leadership buy-in. Polytechnic TPS for TEM—hex grid, Mother Shape, solo career-board presentation. BirdsEye maps. Branding: AZHype via Cre8tive Influence; freelance for family businesses. Seeking full-time product or brand-systems work after graduation.

EXPERIENCE

RealCopy — Founder

PropTech · Beta (TestFlight)

- Agent tool from realtor interviews + BirdsEye/real-estate photo context; Glide first, rebuilt for API and UI control.

DealerDeck LLC — Founder

Automotive · Pilot

- Voice capture, live transcript edits, inventory feeds + BMW reference tables; GM/manager-approved pilots; CRM hooks next.

BirdsEye — Technical Lead

Geospatial / construction

- Ortho + 3D to stakeholder maps; field-first review.

ASU Polytechnic TPS — PM & lead designer

Completed

- TEM-rooted system; MIT-inspired structure; grid + guidelines; signage/digital/print; sole presenter to career advisory board.

ASU GIT Agency — Designer

Application-only cohort · Completed

- TEDx Faurot Park 2026 — FigJam collaboration; repeatable pattern from logo branch (AI explore, hand finish).
- Southwest Label & Print — rebrand + clearer web/quote path after shop interviews.

Cre8tive Influence / freelance — Designer

AZHype + additional clients

- AZHype volleyball club: sole designer, live client iteration, guidelines + collateral still in market.
- Freelance logos and brand packages (e.g., Alara Aquatics, Accuracy Solutions).
